SAEON is performing coordinated water volumetric monitoring in streams (weirs), ground water systems (Monitoring wells) and wetland systems (including some estuarine wetland systems). All monitoring requires continuous and event based recording. The intention is long term deployment with reliable data output. Deployment will be at multiple sites under varying conditions of flow, depth, salinity (but not marine) and water quality. Where possible, the same or compatible instruments across sites will be used (streamlining on one to two systems, depending on exact application), that will provide comparable data and systems compatibility with respect to software and data management support. We are looking for versatile, reliable Sensor- logger systems suited to the harshness and array of conditions under which deployments will occur – from high altitude mountains systems with below freezing temperatures to coastal systems.

The Bid documents can be downloaded from the NRF website: www.nrf.ac.za Select BIDS and then CALL FOR BIDS.

SAEON requires **In situ** Soil CO₂ flux (min of 8 chambers in one system, with capacity to extend to 16), each chamber with auxiliary sensors capacity e.g. soils temperature and soils moisture. The system must be able to measure soil CO₂ flux temporally and spatially. It must be able to do this over the variety of environmental conditions that influence soil CO₂ flux. This must be done with minimal disturbance to the surrounding

environmental conditions. In addition the system must have the capacity to measure net Net Carbon CO₂ Exchange (NCE, i.e. the difference between the photosynthetic uptake of CO₂ by foliage and the emission of CO₂ through soil respiration) with this chamber also having auxiliary sensors capacity. The Bid documents can be downloaded from the NRF website: www.nrf.ac.za Select BIDS and then CALL FOR BIDS.

DEPARTMENT OF CORRECTIONAL SERVICES

NOTICE ON FRAUDULANT PURCHASE ORDERS:

The Department of Correctional Service (Head Office) is experiencing a significant increase in the number of fictitious and fraudulent orders for provisioning of goods and or services submitted to supplier by unknown people without its knowledge. These order documents bear the departmental letter heads and contact details of people unknown to the department.

Suppliers are cautioned that, should they receive a suspicious looking request for quotation or order they should verify the telephone numbers (from any telephone directory services) of Correctional Services where these documents are purported to be emanating from and telephonically verify the authenticity thereof with the Logistics unit before they supply any goods or services.

We sincerely regret the inconvenience this may have on prospective suppliers, but cannot allow incidents such as these to undermine the integrity and reputation of the department. We urge all suppliers to report these incidents to the South African Police Services.

\textbf{N.B.} The Department will not be held liable for any transaction between the supplier and the perpetrator.

TOURISM GRADING COUNCIL
OF SOUTH AFRICA
QUALITY IN TOURISM
JOIN OUR DYNAMIC TEAM AS A SERVICE PROVIDER!

South African Tourism (SAT) was originally created in terms of an Act of Parliament in August 1947 to promote the country as the preferred tourist destination in the world in order to maximise the economic potential of tourism for the country and its people. The organisation’s mission to drive tourism growth is founded on increasing the return on marketing expenditure through focused activities against chosen market segments.

Operating as one of the business units of SAT, The Tourism Grading Council of South Africa (TGCSA) is the only officially recognized organization that authorizes accommodation establishments to display Quality Stars. The TGCSA provides a rigorous framework and process for the quality assurance that is continuously sought after by businesses seeking to showcase their products in this vibrant industry which contributes to an increase in consumer confidence, thus ensuring the country’s international competitiveness as a tourism destination of choice.

The TGCSA ensures the standard of quality of accommodation and conference venues, throughout South Africa by literally “putting the stars where they belong”. Each of these establishments needs to display a quality grading plaque outside their establishment to indicate they have been star graded by the TGCSA as well as a grading certificate stating their valid grading period. It is critical for South Africa to have a growing inventory of accommodation establishments that subscribe to quality and continuously invest and improve on the offering and experience. This, we believe will enhance and secure consumer confidence in the South African tourism offering when tourists choose a One Star, Two Star, Three Star, Four Star or even a Five Star establishment for their next holiday or business trip.

The TGCSA aims to grow this number of quality graded establishments across the country by developing a strong value proposition to being star graded and to renew their quality grading status every 12 months, especially because Grading is a Voluntary system in South Africa.

The purpose of this call for Expressions of Interest is to invite proposals from reputable service providers to assist the TGCSA to provide tourism accommodation establishments with a more compelling reason to join the TGCSA and renew their grading status on an annual basis.

We call on interested parties to propose a basket of benefits that the TGCSA can offer to those establishments that subscribe to quality, thus enhancing South Africa’s internationally competitiveness as a tourism destination.

The expression of interest document (TGCSA 17/3) will be available for download from 9h00 on Monday, 2 December 2013 on: http://www.southafrica.net/za/en/tenders#current.

Completed documents together with 1 original proposal, 3 hard copies and 5 electronic copies (submitted in one sealed envelope) must be dropped inside the tender box situated in the reception area of South African Tourism, 90 Protea Road, Chislehurston, Sandton, by no later than 12h00 on Monday, 23 December.
