### DEPARTMENT OF AGICULTURE, FORESTRY AND FISHERIES DEPARTEMENT VAN LANDBOU, BOSBOU EN VISSERIE

No. 746

11 October 2013

#### NATIONAL AGRICULTURAL MARKETING COUNCIL MARKETING OF AGRICULTURAL PRODUCTS ACT, 1996, AS AMENDED (ACT No. 47 OF 1996)

---

#### REQUEST FOR THE CONTINUATION OF STATUTORY MEASURES RELATING TO LEVIES, REGISTRATION AND RECORDS & RETURNS IN THE PORK INDUSTRY IN TERMS OF THE MARKETING OF AGRICULTURAL PRODUCTS ACT

---

It is hereby made known that, in terms of section 11 of the Marketing of Agricultural Products Act, 1996 (Act No.47 of 1996) (MAP Act), the Minister of Agriculture, Forestry and Fisheries has received a request from the pork industry for the continuation of statutory measures relating to levies, registration, the keeping of records and the rendering of returns. The applicant for the proposed statutory measures is the South African Pork Producers' Organisation (SAPPO), a voluntary organisation established by pork producers in 1992 to act as mouthpiece and representative organisation for pork producers in South Africa. The current statutory measures for the pork industry will expire on 31 October 2014. Although the current statutory measures will only lapse on 31 October 2014, SAPPO requested ministerial approval for the establishment of the proposed statutory measures for a new period of three years, from 1 November 2013 (one year earlier) to expire on 31 October 2016.

The existing statutory levy is R7.00 per slaughter pig or live pig exported (excluding VAT). SAPPO proposed that the statutory levy increase to R8.50 per pig (VAT excluded) for the period 1 November 2013 to 31 October 2014, to R8.93 per pig (VAT excluded) for the period 1 November 2014 to 31 October 2015 and to R9,38 per pig (VAT excluded) for the period 1 November 2015 to 31 October 2016. The estimated income from the proposed levies is between R20,4 million (for 2013/14) and R22,5 million per annum (for 2015/16). The proposed statutory levies will finance the following functions, namely –

- Development of black developing farmers;
- Consumer Assurance;
- Consumer Education;
- Research and Development;
- Industry information and liaison; and
- Administration

The MAP Act stipulates that a statutory levy may not exceed 5% of the price realised for a specific agricultural product at the first point of sale. The maximum of 5% must be based on a guideline price calculated as the average price at the first point of sale over a period not exceeding three years. The proposed statutory levies will only be 0.68% of the calculated guideline price for a pork carcass (an average over three years) at the first point of sale.

The purpose of the statutory measure relating to registration is to compel abattoirs slaughtering pigs and exporters of live pigs, to register with the levy administrator (SAPPO). The purpose of the statutory measure relating to records & returns is to compel abattoirs and exporters of live pigs to render records and returns to the levy administrator. These statutory measures are necessary to ensure that continuous, timeous and accurate market information relating to pigs slaughtered, marketed and live pigs exported is available to all role-players. Market information is deemed essential for all role players in order for them to make informed decisions.

The National Agricultural Marketing Council (NAMC) took cognisance that the proposed continuation of the statutory measures relating to levies, registration, the keeping of records and the rendering of returns in the pork industry as requested by SAPPO, is consistent with the objectives of the MAP Act. The request is currently being investigated by the NAMC and recommendations in this regard will be made to the Minister in the near future.

**Directly affected groups in the pork industry are kindly requested to submit any comments, regarding the proposed statutory measures, to the NAMC on or before 25 October 2013, to enable the Council to finalise its recommendation to Minister in this regard. Submissions should be in writing and be addressed to:**

**NB: Please complete all sections. Attach required maps and sketches. Graphics must be clear, labeled and, where applicable, should include a true north arrow and scale.**

## 1 ENTERPRISE DETAILS

The report must contain the enterprise details section that provides accurate, complete, current information on the following:

### 1.1 Enterprise Details

Enterprise Name	
Trading As	
Type of Enterprise, e.g. Company/Close Corporation/Trust	
Company/Close Corporation/Trust Registration Number (Registration Numbers if Joint Venture)	
Registered Address	
Postal Address	
Telephone Number (General)	
Fax Number (General)	
Industry Type/Nature of Trade	
Land Use Zoning as per Town Planning Scheme	
Land Use Rights if outside Town Planning Scheme	

Responsible Person	
Emission Control Officer	
Telephone Number	
Cell Phone Number	
Fax Number	
E-mail Address	
After Hours Contact Details	

**1.2 Location and Extent of the Plant**

Physical Address of the Plant	
Description of Site (Where No Street Address)	
Coordinates of Approximate Centre of Operations	North-south: East-west:
Extent (km <sup>2</sup> )	
Elevation Above Mean Sea Level (m)	
Province	
Metropolitan/District Municipality	
Local Municipality	
Designated Priority Area (if applicable)	

**Description of surrounding land use (within 5 km radius)**

Provide a description of the surrounding land use within a 5 km radius, specifically noting the names and proximity of residential and commercial areas in relation to the site of works. This information can be obtained from topographical maps, local land use planning offices or other electronic resources.

---

---

---

---

---

---

Attach legible map(s), satellite image(s) or aerial photograph(s) in colour, detailing location of the plant in relation to surrounding community.

**1.3 Atmospheric Emission Licence and Other Authorisations**

List the atmospheric emission licence number relating to the listed activity or activities undertaken at the plant, and all other authorisations, permits, licences related to air quality management.

## 2 NATURE OF THE PROCESS

### 2.1 Listed Activity or Activities

Category of Listed Activity	Sub-category of the Listed Activity	Description of the Listed Activity

### 2.2 Process Description

Provide a detailed description of the entire production process undertaken at the plant, including reference to the overall balance sheet inputs, outputs and emissions. Attach a process flow diagram that illustrates the inputs, outputs and points of emissions.

### 2.3 Unit Processes

Name of the Unit Process	Unit Process Function	Batch or Continuous Process

Note: In the event of confidential or proprietary information being disclosed, this matter will be handled on a case by case basis. The regulator reserves the right to request proof of a confidentiality or proprietary supply agreement. Failure to provide sufficiently detailed information to allow the air quality officer to make an informed decision may result in delays in the processing or even rejection of the Atmospheric Impact Report.

### 3 TECHNICAL INFORMATION

#### 3.1 Raw Materials Used

Provide accurate information on raw materials used at the plant:

Raw Material Type	Design Consumption Rate (quantity)	Units (quantity/period)

#### 3.2 Appliances and Abatement Equipment Control Technology

Provide information on appliances used at the plant:

Appliance Name	Appliance Type / Description	Appliance Function / Purpose

Note: In the event of confidential or proprietary information being disclosed, this matter will be handled on a case by case basis. The regulator reserves the right to request proof of a confidentiality or proprietary supply agreement. Failure to provide sufficiently detailed information to allow the air quality officer to make an informed decision, may result in delays in the processing or even rejection of the Atmospheric Impact Report.

#### 4 ATMOSPHERIC EMISSIONS

This paragraph must provide the following information:

##### 4.1 Point source parameters

List the location of all point source parameters, only considering those point sources that emit the pollutant/s identified in the Section 21 regulations for that specific listed activity:

Point source number	Point source name	Point source coordinates	Height of release above ground (m)	Height above nearby building (m)	Diameter at stack tip / vent exit (m)	Actual gas exit temperature (°C)	Actual gas volumetric flow (m³/hr)	Actual gas exit velocity (m/s)	Type of emission (continuous / batch)

#### 4.2 Point source maximum emission rates (normal operating conditions)

Point source number	Point source name (as in paragraph 4.1. above)	Pollutant name	Average emission rate		Duration of emissions
			(mg/Nm <sup>3</sup> )	Averaging period	

#### 4.3 Point source maximum emission rates (start-up, shut-down, upset and maintenance conditions)

Provide a description of start-up, shut-down, upset and maintenance operating conditions with specific reference to the emissions profile that will be expected for the pollutant/s identified in the Section 21 regulations for that specific listed activity. Provide an estimated raw gas emission rate for each of these operating conditions.

Provide a summary of the frequency of start-up, shut-down, upset and maintenance operating conditions experienced over the last 2 years.

#### **4.4 Fugitive emissions (area and or line sources)**

Describe and quantify fugitive emissions at the plant, including, but not limited to:

- (a) emissions from stockpiles, haul roads, conveyors, crushers, material handling;
- (b) evaporation losses from storage tanks, transfer stations, effluent treatment works, dams, etc.;  
and
- (c) current and approved planned measures to manage or mitigate each source of fugitive emission.

The sub-paragraph must clearly set out source locations, dimensions and temporal variations in emissions for the pollutant/s identified in the Section 21 regulations for that specific listed activity. Technically sound methods must be used in quantifying fugitive emissions. The methods used to quantify fugitive emissions must be documented and the margin of uncertainty indicated.

#### **4.5 Emergency Incidents**

Provide a summary of emergency incidents in the last 2 years resulting in atmospheric emissions, including:

- (a) Nature and cause of the incident;
- (b) Actions undertaken immediately following the incident to minimise impact; and
- (c) Actions undertaken subsequently to reduce the likelihood of reoccurrence.

## **5 IMPACT OF ENTERPRISE ON THE RECEIVING ENVIRONMENT**

### **5.1 Analysis of Emissions' Impact on Human Health**

In order to assess the atmospheric impact of the facility on human health a dispersion modelling exercise must be undertaken. Any dispersion modelling study undertaken as part of an Atmospheric Impact Report must be done in accordance with the National Air Quality Modelling Guidelines specified for regulatory purposes – developed in terms of section 53 of AQA. The impact assessment should take the emissions of the facility under consideration as well as prevailing ambient air concentrations into account during this assessment. A compliance assessment must be undertaken using the national ambient air quality standards, specifically in residential areas and other areas where human exposure could occur.

### **5.2 Analysis of Emissions' Impact on the Environment**

In order to assess the atmospheric impact of the facility on the environment a dispersion modelling exercise may be undertaken at the discretion of an Air Quality Officer. Any dispersion modelling study undertaken as part of an Atmospheric Impact Report must be done in accordance with the national air quality modelling guidelines specified for regulatory purposes. The impact assessment should take the emissions of the facility under consideration into account as well as prevailing ambient air concentrations during this assessment. An environmental assessment may include but is not limited to the following aspects:

- (a) Soil;
- (b) Water Bodies (rivers, dams, lakes); and
- (c) Commercial Agriculture Operations

## **6 COMPLAINTS**

Provide details on any complaints the plant has received in respect of air pollution in the last 2 years. The summary of complaints must detail the frequency, nature and source of the complaint as well as all measures taken in response to these complaints.

## **7 CURRENT OR PLANNED AIR QUALITY MANAGEMENT INTERVENTIONS**

Provide an overview of any approved air quality management improvement interventions currently being implemented for the facility and those scheduled for the next 5 years. Please indicate the envisaged emission reduction that will be achieved from these interventions.

## **8 COMPLIANCE AND ENFORCEMENT HISTORY**

The AIR must set out all air quality compliance and enforcement actions undertaken against the enterprise in the last 5 years. This may include, amongst others, directives, compliance notices, interdicts, prosecution, fines.

## **9 ADDITIONAL INFORMATION**

Please submit any additional documentation in relation to this Atmospheric Impact Report which you wish to draw to the attention of the responsible Air Quality Officer.

## **10 FORMAL DECLARATIONS**

- 10.1 A declaration of accuracy of information must be submitted by all applicants in the form contained in Annexure A to these Regulations.
- 10.2 A declaration of independence must be submitted by all practitioners preparing Atmospheric impact Reports in the form contained in Annexure B to these Regulations.

## ANNEXURE A

---

DECLARATION OF ACCURACY OF INFORMATION - APPLICANT

---

Name of Enterprise: \_\_\_\_\_

Declaration of accuracy of information provided:

**Atmospheric Impact Report in terms of section 30 of the Act.**

I, \_\_\_\_\_ [duly authorised], declare that the information provided in this atmospheric impact report is, to the best of my knowledge, in all respects factually true and correct. I am aware that the supply of false or misleading information to an air quality officer is a criminal offence in terms of section 51(1)(g) of this Act.

Name of Practitioner: \_\_\_\_\_

Name of Registration Body: \_\_\_\_\_

Professional Registration No.: \_\_\_\_\_

Declaration of independence and accuracy of information provided:

**Atmospheric Impact Report in terms of Section 30 of the Act.**

I, \_\_\_\_\_, declare that I am independent of the applicant. I have the necessary expertise to conduct the assessments required for the report and will perform the work relating the application in an objective manner, even if this results in views and findings that are not favourable to the applicant. I will disclose to the applicant and the air quality officer all material information in my possession that reasonably has or may have the potential of influencing any decision to be taken with respect to the application by the air quality officer. The information provided in this atmospheric impact report is, to the best of my knowledge, in all respects factually true and correct. I am aware that the supply of false or misleading information to an air quality officer is a criminal offence in terms of section 51(1) (g) of this Act.

Until further notice, all other levies charged by the Perishable Products Export Control Board including hour and kilometre rates, will remain unchanged.

**BOARD NOTICE 204 OF 2013****Private Security Industry Regulatory Authority**

---

**Withdrawn Security Service Providers prohibited from offering security services within the industry.**

The Private Security Industry Regulation Act makes provision for the Private Security Industry Regulatory Authority (PSIRA) to effect a withdrawal of registration on a security service provider should there be reasonable grounds to do so or where such a service provider is found to be in contravention of the Act. It further provides for the service provider whose registration is withdrawn to not render any security service during that period.

With the above said, PSIRA effected the withdrawal of security service providers in terms of Section 26(7) of the Private Security Industry Regulation Act prohibited from rendering security services within the industry who;

- Failed to pay annual fees or,
- Voluntarily applied to be withdrawn from rendering services within the industry or,
- Failed to demonstrate minimum infrastructure and capacity requirements

A list of these service providers is available on the PSIRA website [www.psira.co.za](http://www.psira.co.za), alternatively the public may contact us on 086 133 3850 for a list of these service providers.
