REPUBLIC OF SOUTH AFRICA

HIGH ALERT: SCAM WARNING!!!

TO ALL SUPPLIERS AND SERVICE PROVIDERS OF THE GOVERNMENT PRINTING WORKS

It has come to the attention of the *GOVERNMENT PRINTING WORKS* that there are certain unscrupulous companies and individuals who are defrauding unsuspecting businesses disguised as representatives of the *Government Printing Works (GPW)*.

The scam involves the fraudsters using the letterhead of *GPW* to send out fake tender bids to companies and requests to supply equipment and goods.

Although the contact person's name on the letter may be of an existing official, the contact details on the letter are not the same as the *Government Printing Works*. When searching on the Internet for the address of the company that has sent the fake tender document, the address does not exist.

The banking details are in a private name and not company name. Government will never ask you to deposit any funds for any business transaction. *GPW* has alerted the relevant law enforcement authorities to investigate this scam to protect legitimate businesses as well as the name of the organisation.

Example of e-mails these fraudsters are using:

PROCUREMENT@GPW-GOV.ORG

Should you suspect that you are a victim of a scam, you must urgently contact the police and inform the *GPW*.

GPW has an official email with the domain as @gpw.gov.za

Government e-mails DO NOT have org in their e-mail addresses. All of these fraudsters also use the same or very similar telephone numbers. Although such number with an area code 012 looks like a landline, it is not fixed to any property.

GPW will never send you an e-mail asking you to supply equipment and goods without a purchase/order number. *GPW* does not procure goods for another level of Government. The organisation will not be liable for actions that result in companies or individuals being resultant victims of such a scam.

Government Printing Works gives businesses the opportunity to supply goods and services through RFQ / Tendering process. In order to be eligible to bid to provide goods and services, suppliers must be registered on the National Treasury's Central Supplier Database (CSD). To be registered, they must meet all current legislative requirements (e.g. have a valid tax clearance certificate and be in good standing with the South African Revenue Services - SARS).

The tender process is managed through the Supply Chain Management (SCM) system of the department. SCM is highly regulated to minimise the risk of fraud, and to meet objectives which include value for money, open and effective competition, equitability, accountability, fair dealing, transparency and an ethical approach. Relevant legislation, regulations, policies, guidelines and instructions can be found on the tender's website.

Fake Tenders

National Treasury's CSD has launched the Government Order Scam campaign to combat fraudulent requests for quotes (RFQs). Such fraudulent requests have resulted in innocent companies losing money. We work hard at preventing and fighting fraud, but criminal activity is always a risk.

How tender scams work

There are many types of tender scams. Here are some of the more frequent scenarios:

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to a company to invite it to urgently supply goods. Shortly after the company has submitted its quote, it receives notification that it has won the tender. The company delivers the goods to someone who poses as an official or at a fake site. The Department has no idea of this transaction made in its name. The company is then never paid and suffers a loss.

OR

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to Company A to invite it to urgently supply goods. Typically, the tender specification is so unique that only Company B (a fictitious company created by the fraudster) can supply the goods in question.

Shortly after Company A has submitted its quote it receives notification that it has won the tender. Company A orders the goods and pays a deposit to the fictitious Company B. Once Company B receives the money, it disappears. Company A's money is stolen in the process.

Protect yourself from being scammed

- If you are registered on the supplier databases and you receive a request to tender or quote that seems to be from a government department, contact the department to confirm that the request is legitimate. Do not use the contact details on the tender document as these might be fraudulent.
- Compare tender details with those that appear in the Tender Bulletin, available online at www.gpwonline.co.za
- Make sure you familiarise yourself with how government procures goods and services. Visit the tender website for more information on how to tender.
- If you are uncomfortable about the request received, consider visiting the government department and/or the place of delivery and/or the service provider from whom you will be sourcing the goods.
- In the unlikely event that you are asked for a deposit to make a bid, contact the SCM unit of the department in question to ask whether this is in fact correct.

- (d) Where products are supplied without a declaration of preferential origin, the stock balance of non-originating materials only may be debited for as long as a balance of such materials is available to support such action. Where this is not the case, the stock balance of originating materials shall be debited.
- (e) The time at which the determination of origin is made shall be the time of manufacture and must be recorded in the authorisation granted by the Manager responsible for the administration of the rules of origin section in Head Office.
- (f) The producer must:

Note 3

3.1: The provisions of Article 4(b) of Annex 2 on Rules of Origin concerning Products having acquired originating status which are used in the manufacture of other Products apply regardless of whether this status has been acquired inside the factory where these Products are used or in a factory in another State Party.

Example 1: An engine of Heading 84.07, for which the rule may state that the value of non-originating Materials which may be incorporated may not exceed a certain percentage of the ex-works price, is made from 'other alloy steel roughly shaped by forging' of Heading ex 72.24.

If this forging has been undertaken in a State Party from a non-originating ingot, it has already acquired originating status by virtue of the rule applicable to Products of HS Chapter 72 in this Appendix. The forging can then count as originating in the value calculation for the engine regardless of whether it was produced in the same factory or in another factory in another State Party. The value of the non-originating ingot is thus not taken into account when adding up the value of the non-originating Materials used.

3.2: The rule in Column 3 represents the minimum amount of working or processing required and the carrying out of more working or processing also confers originating status. Conversely, the carrying out of less working or processing cannot confer

AFRICAN CONTINENTAL FREE TRADE AREA: APPENDIX IV TO ANNEX 2 ON RULES OF ORIGIN

originating status. Thus if a rule provides that non-originating material at a certain level of manufacture may be used, the use of such material at an earlier stage of manufacture is allowed and the use of such material at a later stage is not.

3.3: When a rule in Column 3 specifies that a Product may be manufactured from more than one material, this means that any one or more Materials may be used. It does not require that all the Materials listed must be used.

Example 2: The rule for fabrics of Headings 52.08 to 52.12 provides that natural fibres may be used and that chemical Materials, among other Materials, may also be used. This does not mean that both have to be used; it is possible to use one or the other or both.

3.4: Where a rule in Column 3 specifies that a Product must be manufactured from a particular Material, the condition obviously does not prevent the use of other Materials which, because of their inherent nature, cannot satisfy the rule. (See also Note 6.2 below in relation to textiles).

Example 3: In the case of an article of apparel of ex Chapter 62 made from non-woven Materials, if the use of only non-originating yarn is allowed for this class of article, it is not possible to start from non-woven cloth, even if non-woven cloths cannot normally be made from yarn. In such cases, the starting Material would normally be at the stage before yarn, that is, the fibre stage.

“SPECIFIC PROCESSES”**Note 4**

4.1: For the purposes of Headings 27.07 and 27.13 the following are the “specific processes”:

- a) vacuum distillation;

AFRICAN CONTINENTAL FREE TRADE AREA: APPENDIX IV TO ANNEX 2 ON RULES OF ORIGIN

- b) redistillation by a very thorough fractionation process;
- c) cracking;
- d) reforming;
- e) extraction by means of selective solvents;
- f) the process comprising all the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolorisation and purification with naturally active earth, activated earth, activated charcoal or bauxite;
- g) polymerisation;
- h) alkylation; and
- i) isomerisation.

4.2: For the purposes of Headings 27.10, 27.11 and 27.12, the following are the 'specific processes':

- a) vacuum distillation;
- b) redistillation by a very thorough fractionation process
- c) cracking;
- d) reforming;
- e) extraction by means of selective solvents;
- f) the process comprising all the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation

AFRICAN CONTINENTAL FREE TRADE AREA: APPENDIX IV TO ANNEX 2 ON RULES OF ORIGIN

with alkaline agents; decolorisation and purification with naturally active earth, activated earth, activated charcoal or bauxite;

- g) polymerisation;
- h) alkylation;
- i) isomerisation;
- j) in respect of heavy oils falling within Heading ex 27.10 only, desulphurisation with hydrogen resulting in a reduction of at least 85 per cent of the sulphur content of the Products processed (ASTM D 1266-59 T method);
- k) in respect of Products falling within Heading 27.10 only, deparaffining by a process other than filtering;
- l) in respect of heavy oils falling within Heading ex 27.10 only, treatment with hydrogen at a pressure of more than 20 bar and a temperature of more than 250 °C with the use of a catalyst, other than to effect desulphurisation, when the hydrogen constitutes an active element in a chemical reaction. The further treatment with hydrogen of lubricating oils of Heading ex 27.10 (e.g. hydrofinishing or decolorisation) in order, more especially, to improve colour or stability shall not, however, be deemed to be a specific process;
- m) in respect of fuel oils falling within Heading ex 27.10 only, atmospheric distillation, on condition that less than 30 per cent of these Products distils, by volume, including losses, at 300 °C by the ASTM D 86 method; and
- n) in respect of heavy oils other than gas oils and fuel oils falling within Heading ex 27.10 only, treatment by means of a high-frequency electrical brush-discharge.

AFRICAN CONTINENTAL FREE TRADE AREA: APPENDIX IV TO ANNEX 2 ON RULES OF ORIGIN

4.3: For the purposes of Heading 27.07 and 27.13 simple operations such as cleaning, decanting, desalting, water separation, filtering, colouring, marking, obtaining a sulphur content as a result of mixing Products with different sulphur contents, any combination of these operations or like operations do not confer origin.

TEXTILES**Note 5**

5.1: The term “natural fibres” is used in this Appendix to refer to fibres other than artificial or synthetic fibres. It is restricted to the stages before spinning takes place, including waste, and, unless otherwise specified, includes fibres that have been carded, combed or otherwise processed but not spun.

5.2: The term “natural fibres” includes horsehair of Heading 05.03, silk of Headings 50.02 and 50.03 as well as the wool fibres, fine or coarse animal hair of Headings 51.01 to 51.05, the cotton fibres of Headings 52.01 to 52.03 and the other vegetable fibres of Headings 53.01 to 53.05.

5.3: The terms “textile pulp”, “chemical Materials” and “paper-making Materials” are used in this Appendix to describe the Materials not classified in Chapters 50 to 63, which can be used to manufacture artificial, synthetic or paper fibres or yarns.

5.4: The term “man-made staple fibres” is used in this Appendix to refer to synthetic or artificial filament tow, staple fibres or waste, of Headings 55.01 to 55.07.

Note 6

6.1: The rules set out in Column 3 shall not be applied to any basic textile Materials, used in the manufacture of this Product, which, taken together, represent [X] per cent or less of the total weight of all the basic textile Materials used. (See also Notes 6.3 and 6.4 below).

AFRICAN CONTINENTAL FREE TRADE AREA: APPENDIX IV TO ANNEX 2 ON RULES OF ORIGIN

6.2: However, the tolerance mentioned in Note 6.1 may only be applied to mixed Products which have been made from two or more basic textile Materials.

The following are the basic textile Materials:

- silk,
- wool,
- coarse animal hair,
- fine animal hair,
- horsehair,
- cotton,
- paper-making Materials and paper,
- flax,
- true hemp,
- jute and other textile bast fibres,
- sisal and other textile fibres of the genus Agave,
- coconut, abaca, ramie and other vegetable textile fibres,
- synthetic man-made filaments, artificial man-made filaments,
- synthetic man-made staple fibres of polypropylene,
- synthetic man-made staple fibres of polyester,

AFRICAN CONTINENTAL FREE TRADE AREA: APPENDIX IV TO ANNEX 2 ON RULES OF ORIGIN

- synthetic man-made staple fibres of polyamide,
- synthetic man-made staple fibres of polyacrylonitrile,
- synthetic man-made staple fibres of polyimide,
- synthetic man-made staple fibres of polytetrafluoroethylene,
- synthetic man-made staple fibres of polyphenylene sulphide,
- synthetic man-made staple fibres of polyvinyl chloride,
- other synthetic man-made staple fibres,
- artificial man-made staple fibres of viscose,
- other artificial man-made staple fibres,
- yarn made of polyurethane segmented with flexible segments of polyether whether or not gimped,
- yarn made of polyurethane segmented with flexible segments of polyester whether or not gimped,
- Products of Heading 56.05 (metallised yarn) incorporating strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film,
- other Products of Heading 56.05.

Example 4: A yarn of Heading 52.05 made from cotton fibres of Heading 52.03 and synthetic staple fibres of Heading 55.06 is a mixed yarn. Therefore, non-originating synthetic staple fibres that do not satisfy the origin rules (which may

AFRICAN CONTINENTAL FREE TRADE AREA: APPENDIX IV TO ANNEX 2 ON RULES OF ORIGIN

require manufacture from chemical Materials or textile pulp) may be used up to a weight of [X] per cent of the yarn.

Example 5: A woollen fabric of Heading 51.12 made from woollen yarn of Heading 51.07 and synthetic yarn of staple fibres of Heading 55.09 is a mixed fabric. Therefore, synthetic yarn which does not satisfy the origin rules (which may require manufacture from chemical Materials or textile pulp) or woollen yarn that does not satisfy the origin rules (which require manufacture from natural fibres, not carded or combed or other otherwise prepared for spinning) or a combination of the two may be used provided their total weight does not exceed [X] per cent of the weight of the fabric.

Example 6: Tufted textile fabric of Heading 58.02 made from cotton yarn of Heading 52.05 and cotton fabric of Heading 52.10 is only a mixed Product if the cotton fabric is itself a mixed fabric being made from yarns classified in two separate headings or if the cotton yarn used are themselves mixtures.

Example 7: Where the tufted fabric concerned has been made from cotton yarn of Heading 52.05 and synthetic fabric of Heading 54.07, then, obviously, the yarns used are two separate basic textile Materials and the tufted textile fabric is accordingly a mixed Product.

6.3: In case of Products incorporating “yarn made of polyurethane segmented with flexible segments of polyether whether or not gimped” this tolerance is [X] per cent in respect of this yarn.

6.4: In the case of Products incorporating “strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of an adhesive between two layers of plastic film”, this tolerance is [X] per cent in respect of this strip.

AFRICAN CONTINENTAL FREE TRADE AREA: APPENDIX IV TO ANNEX 2 ON RULES OF ORIGIN**Note 7**

7.1: Textile Materials, with the exception of linings and interlinings, which do not satisfy the rule set out in Column 3 for the made-up Product concerned may be used provided that they are classified in a Heading other than that of the Product and that their value does not exceed [X] per cent of the ex-works price of the Product.

7.2: Without prejudice to Note 6.3, Materials which are not classified within Chapters 50 to 63 may be used freely in the manufacture of textile Products, whether or not they contain textiles.

Example 8: Where a rule in the Appendix provides that for particular textile items yarn must be used, this does not prevent the use of metal items, such as buttons, because buttons are not classified within Chapters 50 to 63. For the same reason, it does not prevent the use of slide-fasteners, even though slide-fasteners normally contain textiles.

7.3: Where a percentage rule applies, the value of Materials which are not classified within Chapters 50 to 63 must be taken into account when calculating the value of the non-originating Materials incorporated.

CHEMICAL PROCESSING RULES TO CONFER ORIGINATING STATUS**Note 8*****Notes to Section VI of the Harmonized System*****Products of the Chemical or Allied Industries (Chapters 28 to 38)**

8.1: Rules 1 through 7 of this Section confer origin to goods of any Chapter, Heading or Sub-heading in this Section, except as otherwise specified in those rules.

AFRICAN CONTINENTAL FREE TRADE AREA: APPENDIX IV TO ANNEX 2 ON RULES OF ORIGIN

8.2: Notwithstanding Note 8.1, goods shall be originating if they meet the applicable change in tariff classification or the percentage value content of non-originating material specified in Column 3 of the Appendix.

Rule 1: Chemical Reaction Origin

8.3: Goods of Chapters 28 through 38, which are subject to a chemical reaction, shall be treated as originating if the chemical reaction occurred in the territory of one or more of the State Parties.

8.4: For purposes of this section, a "chemical reaction" is a process (including a biochemical process) that results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule.

8.5: The following are not considered to be chemical reactions for the purposes of determining whether a Product is an originating good:

- (a) dissolution in water or in other solvents;
- (b) the elimination of solvents including solvent water; or
- (c) the addition or elimination of water of crystallization.

Rule 2: Purification Origin

8.6: Goods of Chapters 28 through 38 that are subject to purification shall be treated as originating provided that one of the following occurs in the territory of one or more of the State Parties:

- (a) Purification of goods resulting in the elimination of [X] percent of the content of existing impurities; or
- (b) The reduction or elimination of impurities resulting in goods suitable for one or

AFRICAN CONTINENTAL FREE TRADE AREA: APPENDIX IV TO ANNEX 2 ON RULES OF ORIGIN

more of the following applications:

- (i) Pharmaceutical, medicinal, cosmetic, veterinary, or food grade substances;
- (ii) Chemical Products and reagents for analytical, diagnostic or laboratory uses;
- (iii) Elements and components for use in micro-elements;
- (iv) Specialised optical uses;
- (v) Non toxic uses for health and safety;
- (vi) Biotechnical use;
- (vii) Carriers used in a separation process; or
- (viii) Nuclear grade uses.

Rule 3: Mixtures and Blends

8.7: Goods of Chapters 30, 31, 33 through 38, except for Heading 38.08, shall be treated as originating if the deliberate and proportionally controlled mixing or blending (including dispersing) of Materials to conform to predetermined specifications which results in the production of goods having physical or chemical characteristics which are relevant to the purposes or uses of the good and are different from the input Materials, occurs in the territory of one or more of the State Parties.

Rule 4: Change in Particle Size

8.8: Goods of Chapters 30, 31 and 33, shall be treated as originating if the following occurs in the territory of one or more of the State Parties:

AFRICAN CONTINENTAL FREE TRADE AREA: APPENDIX IV TO ANNEX 2 ON RULES OF ORIGIN

the deliberate and controlled modification in particle size of goods, including micronizing by dissolving a polymer and subsequent precipitation, other than by merely crushing or pressing, resulting in goods having a defined particle size, defined particle size distribution or defined surface area, which is relevant to the purposes of the resulting good and have different physical or chemical characteristics from the input Materials is considered to be origin conferring.

Rule 5: Standards Materials

8.9: Goods of Chapters 28 through 38, shall be treated as originating if the production of these Materials occurs in the territory of one or more of the State Parties.

8.10: For the purposes of this Note “standards Materials” (including standard solutions) are preparations suitable for analytical, calibrating or referencing uses and having precise degrees of purity or proportions, which are certified by the manufacturer.

Rule 6: Isomer Separation

8.11: Goods of Chapters 28 through 38, shall be treated as originating if the isolation or separation of isomers from mixtures of isomers occurs in the territory of one or more of the State Parties.

Rule 7: Separation Prohibition

8.12: Goods that undergo a change from one classification to another in the territory of one or more of the State Parties as a result of the separation of one or more Materials from a man-made mixture shall not be treated as originating unless the isolated material underwent a chemical reaction in the territory of one or more of the State Parties.

and

PART III OBJECTIVES

Article 3 Objectives

The principal objective of this Protocol is to support the objectives of the AfCFTA, as set out in Article 3 of the Agreement particularly to create a single liberalised market for trade in services.

The specific objectives of this Protocol are to:

enhance competitiveness of services through: economies of scale, reduced business costs, enhanced continental market access, and an improved allocation of resources including the development of trade-related infrastructure;

promote sustainable development in accordance with the Sustainable Development Goals (SDGs);

foster domestic and foreign investment;

accelerate efforts on industrial development to promote the development of regional value chains;

progressively liberalise trade in services across the African continent on the basis of equity, balance and mutual benefit, by eliminating barriers to trade in services;

ensure consistency and complementarity between liberalisation of trade in services and the various Annexes in specific services sectors;

pursue services trade liberalisation in line with Article V of the GATS by expanding the depth and scope of liberalisation and increasing, improving and developing the export of services, while fully preserving the right to regulate and to introduce new regulations;

promote and enhance common understanding and cooperation in trade in services amongst State Parties in order to improve the capacity, efficiency and competitiveness of their services markets; and

promote research and technological advancement in the field of services to accelerate economic and social development.

PART IV GENERAL OBLIGATIONS AND DISCIPLINES

Article 4 Most-Favoured-Nation Treatment

With respect to any measure covered by this Protocol, each State Party shall, upon entry into force, accord immediately and unconditionally to services and service suppliers of any other State Party treatment no less favourable than that it accords to like services and service suppliers of any Third Party.

Nothing in this Protocol shall prevent a State Party from entering into a new preferential agreement with a Third Party, in accordance with Article V of the GATS provided such agreements do not impede or frustrate the objectives of this Protocol. Such preferential treatment shall be extended to all State Parties on a reciprocal and non-discriminatory basis.

Notwithstanding paragraph 1, two (2) or more State Parties may conduct negotiations and agree to liberalise trade in services for specific sectors or sub-sectors in accordance with the objectives in this Protocol. Other State Parties shall be afforded opportunity to negotiate the preferences granted therein on a reciprocal basis.

Notwithstanding the provisions of paragraph 2, a State Party shall not be obliged to extend preferences agreed with any Third Party prior to the entry into force of this Protocol, of which that State Party was a member or a beneficiary. A State Party may afford opportunity to the other State Parties to negotiate the preferences granted therein on a reciprocal basis.

The provisions of this Protocol shall not be so construed as to prevent any State Party from conferring or according advantages to adjacent countries in order to facilitate exchanges limited to contiguous frontier zones of services that are both locally produced and consumed.

A State Party may maintain a measure which is inconsistent with paragraph 1, provided it is listed in the Most Favoured Nation (MFN) exemption list. The agreed list of MFN exemptions shall be annexed to this Protocol. States Parties shall regularly review MFN exemptions, with a view to determining which MFN exemptions can be eliminated.

Article 5 Transparency

Each State Party shall, in a medium⁵ that is accessible, publish promptly and, except in emergency situations, at the latest by the time of their entry into force, all relevant measures of general application which pertain to or affect the operation of this Protocol. International and regional agreements pertaining to or affecting trade in services to which a State Party is a signatory shall also be published.

Each State Party shall notify the Secretariat of any international and regional agreements pertaining to or affecting trade in services with Third Parties to which they are signatory prior to or after entry into force of this Protocol.

Each State Party shall promptly and at least annually notify the Secretariat of the introduction of any new, or any changes to, existing laws, regulations or administrative guidelines which significantly affect trade in services under this Protocol.

Where a State Party submits a notification to the Secretariat, the latter shall promptly circulate the said notification to all State Parties.

Each State Party shall respond promptly to all requests by any other State Party for specific information on any of its measures of general application or international and/or regional agreements within the meaning of paragraph 1. State Parties shall also reply to any question from any other State Party relating to an actual or proposed measure that might substantially affect the operation of this Protocol.

⁵ For example through Gazette, newsletter, Hansard, or websites in one of the African Union languages.

Each State Party shall designate the relevant enquiry points to provide State Parties with specific information, upon request, on all such matters related to trade in services as well as those subject to the notification requirement above.

Article 6 Disclosure of Confidential Information

Nothing in this Protocol shall require any State Party to disclose confidential information and data, the disclosure of which would impede law enforcement, or otherwise be contrary to the public interest, or which would prejudice legitimate commercial interests of particular enterprises, public or private.

Article 7
Special and Differential Treatment

In order to ensure increased and beneficial participation in trade in services by all parties, State Parties shall:

provide special consideration to the progressive liberalisation of service sectors commitments and modes of supply which will promote critical sectors of growth, social and sustainable economic development;

take into account the challenges that may be encountered by State Parties and may grant flexibilities such as transitional periods, within the framework of action plans, on a case by case basis, to accommodate special economic situations and development, trade and financial needs in implementing this Protocol for the establishment of an integrated and liberalised single market for trade in services; and

accord special consideration to the provision of technical assistance and capacity-building through continental support programmes.

Article 8
Right to Regulate

Each State Party may regulate and introduce new regulations on services and services suppliers within its territory in order to meet national policy objectives, in so far as such regulations do not impair any rights and obligations arising under this Protocol.

Article 9
Domestic Regulation

In sectors where specific commitments are undertaken, each State Party shall ensure that all measures of general application affecting trade in services are administered in a reasonable, objective, transparent and impartial manner.

Each State Party shall maintain or institute, as soon as practicable, judicial, arbitral or administrative tribunals or procedures which provide, at the request of an affected service supplier, for the prompt review of, and where justified, appropriate remedies for, administrative decisions affecting trade in services. Where such procedures are not independent of the agency entrusted with the administrative decision concerned, the State Party shall ensure that the procedures in fact provide for an objective and impartial review.

Where authorisation is required for the supply of a service liberalised under this Protocol, the competent authorities of a State Party shall, within a reasonable period of time after the submission of an application considered complete under domestic laws and regulations, inform the applicant of the decision concerning the application. At the request of the applicant, the competent authorities of the State Party shall provide, without undue delay, information concerning the status of the application.

Article 10
Mutual Recognition

For the purposes of the fulfilment, in whole or in part, of its standards or criteria for the authorisation, licensing or certification of services suppliers, and subject to the requirements of paragraph 3 of this Article, a State Party may recognise the education or experience obtained, requirements met, or licenses or certifications granted in another State Party. Such recognition, which may be achieved through harmonisation or otherwise, may be based upon an agreement or arrangement with the State Party concerned or may be accorded autonomously.

A State Party that is a party to an agreement or arrangement of the type referred to in paragraph 1 of this Article, whether existing or future, shall afford adequate opportunity for other interested State Parties to negotiate their accession to such an agreement or arrangement or to negotiate comparable ones with it. Where a State Party accords recognition autonomously, it shall afford adequate opportunity for any other State Party to demonstrate that education, experience, licenses, or certifications obtained or requirements met in that other State Party's territory should be recognised.

State Party shall not accord recognition in a manner which would constitute a means of discrimination between State Parties in the application of its standards or criteria for the authorisation, licensing or certification of service suppliers, or a disguised restriction on trade in services.

Each State Party shall:

- (a) within twelve (12) months from the date on which the Agreement enters into force for it, inform the Secretariat of its existing recognition measures and state whether such measures are based on agreements or arrangements of the type referred to in paragraph 1 of this Article;

promptly inform the State Parties through the Secretariat as far in advance as possible of the opening of negotiations on an agreement or arrangement of the type referred to in paragraph 1 of this Article in order to provide adequate opportunity to any other State Party to indicate their interest in participating in the negotiations before they enter a substantive phase; and

promptly inform the States Parties through the Secretariat when it adopts new recognition measures or significantly modifies existing ones and state whether the measures are based on an agreement or arrangement of the type referred to in paragraph 1 of this Article.

Wherever appropriate, recognition should be based on AfCFTA agreed criteria by State Parties. In appropriate cases, State Parties shall work in cooperation with relevant intergovernmental and non-governmental organisations towards the establishment and adoption of common continental standards and criteria for recognition and common continental standards for the practice of relevant services trades and professions.

Article 11

Monopolies and Exclusive Service Suppliers

Each State Party shall ensure that any monopoly supplier of a service in its territory does not, in the supply of the monopoly service in the relevant market, act in a manner inconsistent with that State Party's obligations and specific commitments under this Protocol.

Where a State Party's monopoly supplier competes, either directly or through an affiliated company, in the supply of a service outside the scope of its monopoly rights and which is subject to that State Party's specific commitments, the State Party shall ensure that such a supplier does not abuse its monopoly position to act in its territory in a manner inconsistent with such commitments.

A State Party which has a reason to believe that a monopoly supplier of a service of any other State Party is acting in a manner inconsistent with paragraphs 1 and 2 of this Article, may request the State Party establishing, maintaining or authorising such supplier to provide specific information concerning the relevant operations.

If, after the date of entry into force of this Protocol, a State Party grants monopoly rights regarding the supply of a service covered by its specific commitments, that State Party shall notify the Secretariat no later than three (3) months before the intended implementation of the grant of monopoly rights and the provisions concerning modification of specific commitments will apply.

The provisions of this Article shall also apply to cases of exclusive service suppliers where a State Party, formally or in effect:

authorises or establishes a small number of service suppliers; and

substantially prevents competition among those suppliers in its territory.

Article 12

Anti-competitive Business Practices

State Parties recognise that certain business practices of service suppliers, other than those concerning monopolies and exclusive service suppliers, may restrain competition and thereby restrict trade in services.

Each State Party shall, at the request of any other State Party, enter into consultations with a view to eliminating practices referred to in paragraph 1 of this Article. The State Party addressed shall respond to such a request and shall cooperate through the supply of publicly available non-confidential information of relevance to the matter in question. The State Party addressed shall also provide other information available to the requesting State Party, subject to its domestic law and to the conclusion of a satisfactory agreement concerning the safeguarding of its confidentiality by the requesting State Party.

Article 13

Payments and Transfers

Except under the circumstances envisaged in Article 14 of this Protocol, a State Party shall not apply restrictions on international transfers and payments for current transactions relating to its specific commitments.

Nothing in this Protocol shall affect the rights and obligations of the members of the International Monetary Fund under the Articles of Agreement of the Fund, including the use of exchange actions which are in conformity with the Articles of Agreement, provided that a State Party shall not impose restrictions on any capital transactions inconsistently with its specific commitments regarding such transactions, except as provided under Article 14 of this Protocol, or at the request of the Fund.

Article 14

Restrictions to Safeguard the Balance of Payments

In the event of serious balance of payments and external financial difficulties or threat thereof, a State Party may adopt or maintain restrictions on trade in services on which it has undertaken specific commitments, including on payments or transfers for transactions related to such commitments. It is recognised that particular pressures on the balance of payments of a State Party in the process of economic development or economic transition may necessitate the use of restrictions to ensure, inter alia, the maintenance of a level of financial reserves adequate for the implementation of its programme of economic development or economic transition.

The restrictions referred to in paragraph 1 of this Article shall:

not discriminate among State Parties;

be consistent with the Articles of Agreement of the International Monetary Fund;

avoid unnecessary damage to the commercial, economic and financial interests of any other State Party;

not exceed those necessary to deal with the circumstances described in paragraph 1 of this Article; and

be temporary and be phased out progressively as the situation specified in paragraph 1 of this Article improves.

In determining the incidence of such restrictions, State Parties may give priority to the supply of services which are more essential to their economic or development programmes. However, such restrictions shall not be adopted or maintained for the purpose of protecting a particular service sector.

Any restrictions adopted or maintained under paragraph 1 of this Article, or any changes therein, shall be promptly notified to the Secretariat.

State Parties applying the provisions of this Article shall consult promptly within the Committee on Trade in Services on restrictions adopted under this Article.

The Committee on Trade in Services shall establish procedures for periodic consultations with the objective of enabling such recommendations to be made to the State Party concerned as it may deem appropriate.

Such consultations shall assess the balance-of-payment situation of the State Party concerned and the restrictions adopted or maintained under this Article, taking into account, inter alia, such factors as:

the nature and extent of the balance-of-payments and the external financial difficulties;

the external economic and trading environment of the consulting State Party; and

alternative corrective measures which may be available.

The consultations shall address the compliance of any restrictions with paragraph 2 of this Article, in particular the progressive phase-out of restrictions in accordance with paragraph 2(e) of this Article.

In such consultations, all findings of statistical and other facts presented by the International Monetary Fund relating to foreign exchange, monetary reserves and balance of payments, shall be accepted and conclusions shall be based on the assessment by the Fund of the balance-of-payments and the external financial situation of the consulting State Party.

If a State Party which is not a member of the International Monetary Fund wishes to apply the provisions of this Article, the Council of Ministers shall establish a review procedure and any other procedures necessary.

Article 15

General Exceptions

Subject to the requirement that such measures are not applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination between State Parties where like conditions prevail, or a disguised restriction on trade in services, nothing in this Protocol shall be construed to prevent the adoption or enforcement by any State Party of measures:

necessary to protect public morals or to maintain public order⁶;

necessary to protect human, animal or plant life or health;

necessary to secure compliance with laws or regulations which are not inconsistent with the provisions of this Protocol including those relating to:

the prevention of deceptive and fraudulent practices or to deal with the effects of a default on services contracts;

the protection of the privacy of individuals in relation to the processing and dissemination of personal data and the protection of confidentiality of individual records and accounts;

safety;

inconsistent with National Treatment, provided that the difference in treatment is aimed at ensuring the equitable or effective imposition or collection of direct taxes in respect of services or service suppliers of other States Parties; and⁷

inconsistent with the Most Favoured Nation obligation provided that the difference in treatment is the result of an agreement on avoidance of double taxation or provisions on the avoidance of double taxation in any other international agreement or arrangement by which the State Party is bound.

Article 16**Security Exceptions**

Nothing in this Protocol shall be construed:

to require any State Party to furnish any information, the disclosure of which it considers contrary to its essential security interests; or

to prevent any State Party from taking any action which it considers necessary for the protection of its essential security interests:

relating to the supply of services as carried out directly or indirectly for the purpose of provisioning a military establishment;

relating to fissionable and fusionable materials or the materials from which they are derived; and

taken in time of war or other emergency in international relations; or

to prevent any State Party from taking any action in pursuance of its obligations under the United Nations Charter for the maintenance of international peace and security.

The Secretariat shall be informed, to the fullest extent possible, of measures taken under paragraphs 1(b) and 1(c) of this Article, and of their termination.

⁶ *The public order exception may be invoked only where a genuine and sufficiently serious threat is posed to one of the fundamental interests of society.*

⁷ *Measures that are aimed at ensuring the equitable or effective imposition or collection of direct taxes include measures taken by a State Party under its taxation system which:*
Apply to non-resident service suppliers in recognition of the fact that the tax obligation of non-residents is determined with respect to taxable items sourced or located in the State Party's territory; or
Apply to non-residents in order to ensure the imposition or collection of taxes in the State Party's territory; or
Apply to non-residents or residents in order to prevent the avoidance or evasion of taxes, including compliance measures; or
Apply to consumers of services supplied in or from the territory of another State Party in order to ensure the imposition or collection of taxes on such consumers derived from sources in the State Party's territory; or
Distinguish service suppliers subject to tax on worldwide taxable items from other service suppliers, in recognition of the difference in the nature of the tax base between them; or
Determine, allocate or apportion income, profit, gain, loss, deduction or credit of resident persons or branches, or between related persons or branches of the same person, in order to safeguard the State Party's tax base.
Tax terms or concepts in paragraph (d) of Article 15 and in this footnote are determined according to tax definitions and concepts, or equivalent or similar definitions and concepts, under the domestic law of the State Party taking the measure.

Article 17 Subsidies

Nothing in this Protocol shall be construed to prevent State Parties from using subsidies in relation to their development programmes.

State Parties shall decide on mechanisms for information exchange and review of all subsidies related to trade in services that State Parties provide to their domestic service suppliers.

Any State Party which considers that it is adversely affected by a subsidy of another State Party may request consultations with that State Party on such matters. Such requests shall be accorded sympathetic consideration.

PART V PROGRESSIVE LIBERALISATION

Article 18 Progressive Liberalisation

State Parties shall undertake successive rounds of negotiations based on the principle of progressive liberalisation accompanied by the development of regulatory cooperation, and sectoral disciplines, taking into account the objectives of the 1991 Abuja Treaty that aim to strengthen integration at the regional and continental levels in all fields of trade, and in line with the general principle of progressivity towards achievement of the ultimate goal of the African Economic Community.

State Parties shall negotiate sector specific obligations through the development of regulatory frameworks for each of the sectors, as necessary, taking account of the best practices and *acquis* from the RECs, as well as the negotiated agreement on sectors for regulatory cooperation. State Parties agree that negotiations for continuing the process shall commence following the establishment of the AfCFTA, based on the work programme to be agreed by the Committee on Trade in Services.

The liberalisation process shall focus on the progressive elimination of the adverse effects of measures on trade in services as a means of providing effective market access with a view to boosting intra-African trade in services.

The list of Priority Sectors and the Modalities on Trade in Services shall be annexed to this Protocol and shall form an integral part hereof.

The Transitional Implementation Work Programme developed by Member States shall guide the finalisation of outstanding Phase I negotiations on this Protocol, before the entry into force of the Agreement.

Article 19 Market Access

With respect to market access through the modes of supply identified in Article 1(p) of this Protocol, each State Party shall accord services and service suppliers of any other State Party treatment no less favourable than that provided for under the terms, limitations and conditions agreed and specified in its Schedule.⁸

In sectors where market-access commitments are undertaken, the measures which a State Party shall not maintain or adopt either on the basis of a regional subdivision or on the basis of its entire territory, unless otherwise specified in its Schedule, are defined as:

limitations on the number of service suppliers whether in the form of numerical quotas, monopolies, exclusive service suppliers or the requirements of an economic needs test;

limitations on the total value of service transactions or assets in the form of numerical quotas or the requirement of an economic needs test;

limitations on the total number of service operations or on the total quantity of service output expressed in terms of designated numerical units in the form of quotas or the requirement of an economic needs test;⁹

⁸ *If a State Party undertakes a market-access commitment in relation to the supply of a service through the mode of supply defined in Article 1(p) and if the cross-border movement of capital is an essential part of the service itself, that State Party is thereby committed to allow such movement of capital. If a State Party undertakes a market-access commitment in relation to the supply of a service through the mode of supply referred to in Article 1(p) (iii), it is thereby committed to allow related transfers of capital into its territory.*

⁹ Article 1(g) (iii) does not cover measures of a State Party which limit inputs for the supply of services.

limitations on the total number of natural persons that may be employed in a particular service sector or that a service supplier may employ and who are necessary for, and directly related to, the supply of a specific service in the form of numerical quotas or the requirement of an economic needs test;

measures which restrict or require specific types of legal entity or joint venture through which a service supplier may supply a service; and

Article 20

National Treatment

In all sectors inscribed in the schedule, and subject to any conditions and qualifications set out therein, each State Party shall accord to services and service suppliers of any other State Party treatment no less favourable than that it accords to its own like services and service suppliers, subject to the conditions and qualifications agreed and specified in its Schedule of Specific Commitments.

A State Party may meet the requirement of paragraph 1 of this Article, by according to services and service suppliers of any other State Party either formally identical treatment or formally different treatment to that it accords to its own like services and service suppliers.

Formally identical or formally different treatment shall be considered to be less favourable if it modifies the conditions of competition in favour of services or service suppliers of the State Party compared to like services or service suppliers of any other State Party.

Article 21

Additional Commitments

The State Parties may negotiate commitments with respect to measures affecting trade in services not subject to scheduling under Articles 19 or 20 of this Protocol, including but not limited to those regarding qualification, standards or licensing matters. Such commitments shall be inscribed in a State Party's Schedule of Specific Commitments.

Article 22

Schedules of Specific Commitments

Each State Party shall set out in a schedule, the specific commitments that it undertakes under Articles 19, 20 and 21 of this Protocol.

With respect to sectors where such commitments are undertaken, each Schedule of Specific Commitments shall specify:

terms, limitations and conditions on market access;

conditions and qualifications on national treatment;

undertakings relating to additional commitments; and

where appropriate the time-frame for implementation of such commitments, including their date of entry into force.

Measures inconsistent with both Articles 19 and 20 of this Protocol shall be inscribed in the column relating to Article 19 of this Protocol. In this case the inscription will be considered to provide a condition or qualification to Article 20 of this Protocol as well.

The Schedules of Specific Commitments, the Modalities for Trade in Services and the list of Priority Sectors shall, upon adoption, form an integral part of this Protocol.

The Transitional Implementation Work Programme developed by Member States shall guide the finalisation of outstanding Phase I negotiations on this Protocol, before the entry into force of the Agreement.

Article 23

Modification of Schedules of Specific Commitments

In such negotiations and agreement, the State Parties concerned shall endeavour to maintain a general level of mutually advantageous commitments not less favourable to trade than that provided for in commitments prior to such negotiations.

Compensatory adjustments shall be made on a most-favoured-nation basis.

If agreement is not reached between the modifying State Party and any affected State Party before the end of the period provided for negotiations, such affected State Party may refer the matter to dispute settlement. Any affected State Party that wishes to enforce a right that it may have to compensation must participate in the dispute process.

If no affected State Party has requested dispute settlement, the modifying State Party shall be free to implement the proposed modification or withdrawal, within a reasonable period of time.

The modifying State Party may not modify or withdraw its commitment until it has made compensatory adjustments in conformity with the findings of the dispute settlement.

If the modifying State Party implements its proposed modification or withdrawal and does not comply with the findings of the arbitration, any affected State Party that participated in the dispute settlement may modify or withdraw substantially equivalent benefits in conformity with those findings. Notwithstanding the obligations under Article 4 of this Protocol, such a modification or withdrawal may be implemented solely with respect to the modifying State Party.

The Committee on Trade in Services shall facilitate such negotiations and establish related appropriate procedures.

Article 24

Denial of Benefits

Subject to prior notification and consultation, a State Party may deny the benefits of this Protocol to service suppliers of another State Party where the service is being supplied by a juridical person of a non-State Party, without real and continuous link with the economy of the State Party or with negligible or no business operations in the territory of the other State Party or any other State Party.

Article 7 Consultations

State Parties with a view to encouraging amicable resolution of disputes, affirm their resolve to strengthen and improve the effectiveness of consultation procedures employed by State Parties.

Article 13

Third Parties

The interests of all Parties to a dispute including Third Parties shall be taken into account during the Panel process.

Such a dispute shall be referred to the original Panel wherever possible.

Third Parties shall receive the submissions of the Parties to a dispute at the first meeting of the Panel.

Article 14

Where more than one (1) State Party requests for the establishment of a Panel related to the same matter, a single Panel may be established to examine these complaints, taking into account the rights of all State Parties concerned. A single Panel shall be established to examine such complaints whenever feasible.

The single Panel shall organise its examination and present its findings to the DSB in such a manner that the rights, which the Parties to the dispute would have enjoyed had separate Panels examined the complaints, are in no way impaired. If one of the Parties to the dispute so requests, the Panel shall submit separate reports on the dispute concerned. The written submissions by each of the Complaining Parties shall be made available to the other Complaining Parties, and each Complaining party shall have the right to be present when any one of the other Complaining Party presents its views to the Panel.

Where the Parties to the dispute have failed to develop a mutually satisfactory solution, the Panel shall submit its findings in the form of a written report to the DSB. In such cases, the report of the Panel shall set out the findings of the fact, the applicability of the relevant provisions and the basic rationale behind any findings and recommendations that it makes.

Where a settlement of the matter among the Parties to the dispute has been found, the report of the Panel shall be confined to a brief description of the case and to reporting that a solution has been reached.

Where a Panel determines that it cannot issue its report within five (5) months, or within one and a half (1½) months in cases of urgency, the Panel shall immediately inform the DSB in writing of the reasons for the delay together with an estimation of the period within which the Panel shall be ready to issue its report. Where a Panel cannot issue a report within the period specified in paragraph 4 of this Article, the Panel shall issue the report within nine (9) months from the date of its composition.

The reports of the Panel shall be drafted in the absence of the Parties to the dispute and shall be based on information and evidence provided by the parties and any other person, expert or institution in accordance with this Protocol.

If the Complaining Party does not request the resumption of the Panel's work before the expiry of the agreed suspension period, the procedure shall be terminated. The suspension and termination of the Panel's work are without prejudice to the rights of either Party to a dispute in another proceeding on the same matter.

The Panel shall have the right to seek information and technical advice from any State Party provided that the State Party is not a Party to the dispute.

Where the AB considers that it cannot provide its report within sixty (60) days, it shall inform the DSB in writing of the reasons for the delay together with an estimate of the period within which it will submit its report. In no case shall the proceedings exceed ninety (90) days.

An appeal shall be limited to issues of law covered in the Panel report and legal interpretations developed by the Panel.

The AB shall be provided with appropriate administrative and legal support as it requires.

The expenses of persons serving on the AB, including travel and subsistence allowance, shall be met from the AfCFTA budget in accordance with the financial rules and regulations of the AU.

Article 22

Procedures for Appellate Review

Working procedures shall be drawn up by the AB in consultation with the Chairperson of the DSB and communicated to the State Parties for their information.

The proceedings of the AB shall be confidential.

The conduct of an appeal under this Article shall not exceed ninety (90) days.

The reports of the AB shall be drafted without the presence of the Parties to the dispute and in the light of the information provided and the statements made.

Opinions expressed in the AB report by individuals serving on the AB shall be anonymous.

The AB shall address each of the issues raised in accordance with paragraph 3 of Article 21 of this Protocol, during the appellate proceeding.

The AB may uphold, modify or reverse the legal findings and conclusions of the Panel.

The AB shall produce a single report reflecting the views of the majority of its members.

An AB report shall be adopted by the DSB and unconditionally accepted by the Parties to the dispute unless the DSB decides by consensus not to adopt the AB report within thirty (30) days following its circulation to the State Parties. This adoption procedure is without prejudice to the right of State Parties to express their views on an AB report.

Article 23

Panel and Appellate Body Recommendations

Where the Panel or the AB concludes that a measure is inconsistent with the Agreement, it shall recommend that the State Party concerned bring the measure into conformity with the Agreement. In addition to its recommendations, the Panel or the AB may suggest ways in which the State Party concerned could implement the recommendations.

Article 24

Surveillance of Implementation of Recommendations and Rulings

State Parties shall promptly comply with recommendations and rulings of the DSB.

A State Party concerned shall inform the DSB of its intentions in respect of the implementation of the recommendations and rulings of the DSB, at a meeting of the DSB which shall be held within thirty (30) days after the date of adoption of the report by the Panel or the AB.

Where a State Party concerned finds it impracticable to comply immediately with the recommendations and rulings of the DSB, the State Party concerned shall be granted a reasonable period in which to comply on the following basis:

period of time proposed by the State Party concerned provided that the DSB approves the proposal; or
in the absence of such approval a period mutually agreed by the Parties to a dispute within forty-five (45) days of the date of adoption of the report of the Panel and the AB and recommendations and rulings of the DSB; or

in the absence of such agreement, a period of time determined through binding arbitration within ninety (90) days after the date of adoption of the recommendations and rulings. In such arbitration a guideline for the arbitrator should be that the reasonable period of time to implement Panel or AB recommendations should not exceed fifteen (15) months from the date of adoption of a Panel or AB report. However, that time may be shorter or longer, depending upon the particular circumstances.

If the parties cannot agree on an arbitrator within ten (10) days after referring the matter to arbitration, the arbitrator shall be appointed by the Secretariat in consultation with the DSB within ten (10) days, after consulting the Parties.

The Secretariat shall keep the DSB informed of the status of the implementation of decisions made under this Protocol.

Except where the Panel or the AB has extended, pursuant to Paragraph 7 of Article 15 or Paragraph 2 of Article 21 of this Protocol, the time of providing its report, the period from the date of establishment of the Panel by the DSB until the date of determination of the reasonable period of time shall not exceed fifteen (15) months unless the Parties to the dispute agree otherwise. Where either the Panel or the AB has extended the time of providing its report, the additional time taken shall be added to the fifteen (15) month period; provided that unless the Parties to the dispute agree that there are exceptional circumstances, the total time shall not exceed eighteen (18) months.

Where there is disagreement as to the existence or consistency with the agreement of measures taken to comply with the recommendations and rulings, such disagreement shall be decided through recourse to these dispute settlement procedures, including wherever possible resort to the original Panel. The Panel shall circulate its report within ninety (90) days after the date of its establishment. Where the Panel considers that it cannot circulate its report within this time frame, it shall inform the DSB in writing of the reasons for the delay together with an estimate of the period within which it will circulate its report.

The DSB shall keep under surveillance the implementation of adopted recommendations or rulings. The issue of implementation of the recommendations or rulings may be raised at the DSB by any State Party at any time following their adoption. Unless the DSB decides otherwise, the issue of implementation of the recommendations or rulings shall be placed on the agenda of the DSB meeting after six (6) months following the date of establishment of the reasonable period of time pursuant to paragraph 3 of this Article, and shall remain on the DSB's agenda until the issue is resolved.

At least ten (10) days prior to each such DSB meeting, the State Party concerned shall provide the DSB with a detailed status report which shall contain among others:

the extent of the implementation of the ruling(s) and recommendation(s);

issues if any, affecting the implementation of the rulings and recommendations;

the period of time required by the State Party concerned to fully comply with implementation of the ruling(s) and recommendation(s).

Article 25**Compensation and the Suspension of Concessions or any other Obligations**

It is the duty of the State Parties to fully implement the recommendations and rulings of the DSB. Compensation and the suspension of concessions or other obligations are temporary measures available to the aggrieved Party in the event that the accepted recommendations and rulings of the DSB are not implemented within a reasonable period of time. Provided that neither compensation nor the suspension of concessions or other obligations is preferred to full implementation of the accepted recommendations. However, compensation is voluntary and, if granted, shall be consistent with the Agreement.

The suspension of concessions or other obligations shall be temporary and shall only be applied in as far as it is consistent with this Agreement and shall subsist until such a time as the inconsistency with the Agreement, or any other determined breach is removed, or that the State Party implements recommendations, or provides a solution to the injury caused, or occasioned by the non-compliance, or that a mutual satisfactory solution is reached.

In the event that the rulings and recommendations of the DSB are not implemented within a reasonable period of time, the aggrieved Party may request the DSB to impose temporary measures which include compensation and the suspension of concessions.

If the State Party concerned fails to bring the measure found to be inconsistent with the Agreement into compliance therewith or otherwise comply with the decisions and rulings within the reasonable period of time determined pursuant to Paragraph 3 of Article 24 of this Protocol, such State Party shall, if so requested, enter into negotiations with a Complaining Party, with a view to developing mutually acceptable compensation. If no satisfactory compensation has been agreed upon within twenty (20) days, a Complaining Party may request authorisation from the DSB to suspend the application to the State Party concerned of concessions or other obligations under the Agreement.

In considering what concessions or other obligations to suspend, the Complaining Party shall apply the following principles and procedures:

the general principle is that the Complaining Party should first seek to suspend concessions or other obligations with respect to the same sector(s) as that in which the Panel or AB has found a violation or other nullification or impairment;

if that Party considers that it is not practicable or effective to suspend concessions or other obligations with respect to the same sector(s), it may seek to suspend concessions or other obligations in other sectors under the Agreement;

if that Party considers that it is not practicable or effective to suspend concessions or other obligations with respect to other sectors under this agreement, and that the circumstances are serious enough, it may seek to suspend concessions or other obligations under the Agreement; and

if that Party to a dispute decides to request authorisation to suspend concessions or other obligations pursuant to subparagraphs (b) or (c), it shall state the reasons thereof in its request to the DSB.

In applying the above principles that party shall take into account:

the trade in the sector under which the Panel or Appellate Body has found a violation or other nullification or impairment, and the importance of such trade to that party; and

the broader economic elements related to the nullification or impairment and the broader economic consequences of the suspension of concessions or other obligations.

The level of the suspension of concessions or other obligations authorised by the DSB shall be equivalent to the level of the nullification or impairment.

When the situation described in paragraph 4 of this Article occurs, the DSB, shall grant authorisation to suspend concessions or other obligations within thirty (30) days from the date of request unless the DSB decides by consensus to reject the request. However, if the State Party concerned objects to the level of suspension proposed, or claims that the principles and procedures set forth in paragraph 5 have not been followed where a complaining party has requested authorisation to suspend concessions or other obligations pursuant to paragraph 5(b) or (c) of this Article, the matter shall be referred to arbitration. Such arbitration shall be carried out by the original Panel, if Panellists are available, or by an arbitrator appointed by the chairperson of the DSB and shall be completed within sixty (60) days from the date of appointment of the arbitrator. Concessions or other obligations shall not be suspended during the course of the arbitration.

The arbitrator acting pursuant to paragraph 7 of this Article, shall not examine the nature of the concessions or other obligations to be suspended but shall determine whether the level of such suspension is equivalent to the level of nullification or impairment. The arbitrator may also determine if the proposed suspension of concessions or other obligations is allowed under the Agreement. However, if the matter referred to arbitration includes a claim that the principles and procedures set forth in paragraph 3 of this Article, have not been followed, the arbitrator shall examine that claim. In the event the arbitrator determines that those principles and procedures have not been followed, the complaining party shall apply them consistent with paragraph 5 of this Article. The Parties to a dispute shall accept the arbitrator's decision as final and the parties concerned shall not seek a second arbitration. The DSB shall be informed promptly of the decision of the arbitrator and shall upon request, grant authorisation to suspend concessions or other obligations where the request is consistent with the decision of the arbitrator, unless the DSB decides by consensus to reject the request.

Article 26
Costs

The DSB shall determine the remuneration and expenses of the Panellists, arbitrators and experts in accordance with the financial rules and regulations of the AU.

The remuneration of the Panellists, arbitrators and experts, their travel and lodging expenses, shall be borne in equal parts by the Parties to a dispute, or in proportions determined by the DSB.

A Party to a dispute shall bear all other costs of the process as determined by the DSB.

Parties to the dispute shall be required to deposit their share of the Panellists' expenses with the Secretariat at the time of establishment, or composition of the Panel.

Article 27 Arbitration

Parties to a dispute may resort to arbitration subject to their mutual agreement and shall agree on the procedures to be used in the arbitration proceedings.

Parties to a dispute who may have referred a dispute for arbitration pursuant to this Article shall not simultaneously refer the same matter to the DSB.

Agreement by the Parties to resort to arbitration shall be notified to the DSB.

Third Parties shall be joined to an arbitration proceeding only upon the agreement of the Parties to the arbitration proceedings.

The Parties to an arbitration proceeding shall abide by the arbitration award and the award shall be notified to the DSB for enforcement.

In the event of a Party to a dispute refusing to cooperate, the Complaining Party shall refer the matter to the DSB for determination.

Arbitration awards shall be enforced in accordance with the provisions of Articles 24 and 25 of this Protocol *mutatis mutandis*.

Article 28

Technical Co-operation

Upon request from a State Party, the Secretariat may provide additional legal advice and assistance in respect of dispute settlement, provided that this shall be done in a manner that ensures the continued impartiality of the Secretariat.

The Secretariat may organise special training courses for interested State Parties concerning dispute settlement procedures and practices to enable State Parties to develop expert capacity on the Dispute Settlement Mechanism.

Article 29**Responsibilities of the Secretariat**

The Secretariat shall have the responsibility of assisting Panels, especially on legal, historical and procedural aspects of the matter dealt with and of providing secretarial support.

The Secretariat shall facilitate the constitution of Panels in accordance with this Protocol.

In order to accomplish the functions under Article 28 of this Protocol, the Secretariat shall avail experts with extensive experience in international trade law to assist the Panellists.

The Secretariat shall undertake such other functions and duties as may be required under the Agreement and in support of this Protocol.

The Secretariat shall be responsible for all relevant notifications to and from the DSB and State Parties.

Article 30**Rules of interpretation**

The Panel and the AB shall interpret the provisions of the Agreement in accordance with the customary rules of interpretation of public international law, including the Vienna Convention on the Law of Treaties, 1969.

Article 31 Amendment

This Protocol shall be amended in accordance with Article 29 of the Agreement.

IN WITNESS WHEREOF, WE the Heads of State and Government or duly authorised representatives of the Member States of the African Union have signed and sealed this Agreement in four original texts in Arabic, English, French, and Portuguese languages, all texts being equally authentic.

SIGNED at Kigali, on this 21st day of March in the year 2018.

 - (c) they contain no concealed spaces where goods may be hidden.
- 2 The means of transportation shall be so constructed that spaces in the form of compartments, receptacles or other recesses which are capable of holding goods are readily accessible for customs inspection.
- 3 Should any empty spaces be formed by the different layers of the sides, floor and roof of the means of transport, the inside surface shall be firmly fixed, solid unbroken and incapable of being dismantled without leaving obvious traces.
- 4 Openings made in the floor for technical purpose, such as lubrication, maintenance and filing of the sand-box, shall be allowed only on condition that they are fitted with a cover capable of being fixed in such a way as to render the loading compartment inaccessible from the outside.
- 5 Doors and all other closing systems of means of transport shall be fitted with a device which shall permit simple and effective customs sealing. This device shall either be secured by at least two bolts, riveted or welded to the nuts on the inside.
- 6 Hinges shall be so made and fitted that doors and other closing systems cannot be lifted off the hinge-pins, once shut; the

screws, bolts, hinge-pins and other fasteners shall be welded to the outer parts of the hinges. These requirements shall be waived, however, where the doors and other closing systems have a locking device inaccessible from the outside which, once it is applied, prevents the doors from being lifted off the hinge-pins.

7. Doors shall be so constructed as to cover all interstices and ensure complete and effective closure.
8. The means of transport shall be provided with a satisfactory device for protecting the Customs seal, or shall be so constructed that the customs seal is adequately protected.
9. The foregoing conditions shall also apply to insulated vehicles, refrigerator vehicles, tank vehicles and furniture vehicles in so far as they are not incompatible in accordance with their use.
10. The flanges (filler caps), drain cocks and manholes of tank wagons shall be so conducted as to allow simple and effective customs sealing.
11. Folding, or collapsible containers are subject to the same conditions as non-folding or non-collapsible containers, provided that the locking device enabling them to be folded or collapsed allows customs sealing and that no part of such container can be moved without breaking the seals.

State Parties may, with respect to goods traded under the provisions of this Annex, apply anti-dumping, countervailing and safeguard measures as provided for in Articles –17 - 19 of the Protocol on Trade in Goods, this Annex and the AfCFTA Guidelines in accordance with relevant WTO Agreements.

Article 3

Application of Global Safeguard Measures

State Parties confirm their rights and obligations under Article XIX of the GATT 1994 and the WTO Agreement on Safeguards.

Article 4

Application of Preferential Safeguard Measures

1. Where, as a result of implementing the Agreement, any product originating in a State Party is being imported into the territory of another State Party in such increased quantities, absolute or relative to domestic production, and under such conditions so as to cause or threaten to cause Serious Injury to the Domestic Industry of like or directly competitive products, such a State Party may apply preferential safeguard measures under the conditions and in accordance with

the procedures laid down in this Annex and the AfCFTA Guidelines.

- 2 A State Party intending to apply definitive preferential safeguard measures shall, before applying such measures, supply the other State Parties concerned with all relevant information, with a view to seek a solution acceptable to all State Parties concerned.
- 3 The State Party shall examine the information provided in paragraph 2 of this Article in order to facilitate a mutually acceptable resolution of the matter.

- 7 Preferential safeguard measures shall not exceed a period of four (4) years and shall contain clear indications of their progressive elimination at the end of the determined period. The preferential safeguard measure may be extended for another period not exceeding four (4) years, subject to justification by the Investigating Authority.
- 8 A State Party shall not apply a global safeguard measure simultaneously with the preferential safeguard measure on the same product within the AfCFTA.

Article 5

Provisional Safeguard Measures

- 1 In critical circumstances where delay would cause damage which would be difficult to repair, the State Party concerned may take a provisional preferential safeguard measure pursuant to a preliminary determination that there is clear evidence that increased imports have caused, or are threatening to cause Serious Injury.
- 2 The State Party intending to apply such a provisional safeguard measure shall, prior to such application, immediately notify the Secretariat and State Parties concerned.
- 3 The duration of the provisional safeguard measure shall not exceed two hundred (200) days, during which period the pertinent requirements of this Annex and the AfCFTA Guidelines shall be met. The duration of such provisional safeguard measures shall be counted as part of the initial period and any extension referred to in this Annex and the AfCFTA Guidelines.

Article 6

Notification

However, after receipt of a properly documented application, and before proceeding to initiate an investigation, the Investigating Authority shall notify the State Party concerned.
- 2 In subsidies and countervailing investigations, where the Investigating Authority is satisfied that there is sufficient evidence to justify the initiation of an investigation, the State Parties shall be notified.
- 3 In global safeguard investigations, a State Party shall immediately notify all State Parties of such initiation of the global safeguard investigations according to the WTO Agreement on Safeguards.
- 4 In preferential safeguard investigations, a State Party shall immediately notify such initiation of the preferential safeguard investigations according to this Annex and the AfCFTA Guidelines.

- 2 In preferential safeguard investigations an Investigating Authority of the State Party shall initiate consultations immediately after the provisional safeguard measure is taken.
